Professional Summary

Dr. Madden is an experienced neonatologist, pediatrician, and lactation consultant who has practiced in a variety of settings, including academic children's hospitals and outpatient NICU follow-up clinics. Dr. Madden opened a newborn medicine home visiting and telemedicine private practice in 2018. As an advocate for "4th trimester" care, she has collaborated on projects to improve care for all mother-baby dyads. Dr. Madden is passionate about discussing neonatology, breastfeeding medicine, and "4th trimester" care via writing, public speaking, and acting as a consultant for patients' families, non-profit organizations, industry, and other practitioners.

Professional Experience

Owner, Primrose Newborn Care, Cleveland, OH 2018 – Present

Founder of the first independent newborn medicine and lactation home visiting and telemedicine practice in NE Ohio. Areas of expertise include:

- Newborn medical and lactation in-home visits
- Telemedicine consultations
- NICU consultations and second opinions
- Developmental screening and follow-up of high risk neonates and NICU graduates
- Perinatal mental health screening
- Collaboration with local birth workers, including doulas and midwives
- On the medical advisory board of Project NICU (a nationwide 503c organization)

Clinical Neonatologist, Rainbow Babies and Children's Hospital, Cleveland, OH 2017 – Present

Clinical neonatologist in the Level 4 NICU at Rainbow Babies. Responsibilities and roles include:

- Overseeing neonatal patient care and attending high-risk deliveries
- NICU procedures, including neonatal resuscitation, airway management, and central line placement
- Teaching: Assistant Professor of Pediatrics at the Case Western Reserve University (CWRU) School of Medicine and Associate Program Director, Neonatal-Perinatal Medicine Fellowship Program at CWRU/Rainbow Babies
- Founder, "NICU at Home" telemedicine program at Rainbow Babies
- Recognized by peers as one of Cleveland's "Top Doctors" in neonatal-perinatal medicine in 2021 (Cleveland Magazine)

Newborn Medicine Consultant (Self-Employed), 2015 – Present

Newborn medicine consultant and advisor for various companies and start-ups, including:

- LacTek: medical advisor on breast pump design
- Innogized Technologies: medical advisor on thermoregulation of preterm and full-term newborns
- Aeroflow Breastpumps: medical directorship and media appearances
- Neolight: medical advisor on newborn jaundice and retinopathy of prematurity
- 2nd.MD: newborn medicine and infant feeding second opinions
- Blueberry Pediatrics: telemedicine lactation and pediatric consultations
- Hello Clue: medical writing and editing
- Doctorpedia: founding medical partner, medical writing and editing
